

Stowe by Chartley Parish Council

Action Plan

Stowe by Chartley Parish Council is an autonomous body consisting of seven elected Councillors whose purpose is to run the Council in an objective and efficient manner to the benefit of the whole community, regardless of political views, colour, creed or gender. The aim of the Council is to enhance the quality of life within the parish by using its powers in an effective and efficient manner. In order to increase the scope of its capabilities, the Council aims to achieve the Quality Award under the Local Council Award Scheme run by the National Association of Local Councils. To achieve this, it is necessary for the Clerk and Councillors to be suitably qualified and for the Council to have a forward-looking plan for further enhancement of the parish's quality of life.

The Council will enhance its communication with residents of the Parish in order to develop the community and improve its representation of the community.
